

## Combined Aid: 1977-2016

This graph shows the growth of student aid a whole. In 1971 the Total Aid was \$25,632 million dollars. For the 2015-2016 academic year the total debt was an estimated \$240,941. In 2015-2016 undergraduate students accounted for \$184,091 million while graduate students accounted for \$56,851 million. The smaller total debt of graduate students reflects the significantly smaller amount of graduate vs. undergraduate students; per student graduates have more debt on average. From 2010 on there has been a slight decline in the total amount, however the sum is still enormously high. Sources: The College Board.

## Aid per Student: 1977-2017

Aid per student at Public and Private universities from 1977 to 2016, in 2015 dollars. In 1977 the average student accepted 200 dollars of total aid (in 2015 dollars); in 2015-2016 the average student accepted \$16,304 dollars, more than 80 times that of a 1970 student. In 2016 the average undergraduate and student accepted over \$14,000 and \$27,000 dollars respectively. Source: The College Board

## Student Debt Greater than 40%

Since the early 2000s the percentage of students with heavy debt has grown significantly. Measured in 2012 dollars, this graph shows the growth in students with \$40,000 or more of debt. From 2003-04 to 2011-12 the percentages increase substantially. For all universities rates increase from a mere 2% of students to 8%. Public universities saw an increase from just 1% to 12% and private universities saw a rates spike from 4% to 20%. By 2011 a massive 48% of all students with Bachelor's degrees from for-profit schools had 40,000 or more debt. Source: The College Board

## Student Debt Since the Nineties: Public vs Private

This graph provides a closer look at how attending a private vs. public school effects the average student's debt. In 1999 attending a private school meant an increase of debt by roughly \$3,000 dollars (\$20,900 vs \$23,900). By the 2014-2015 school year however students attending private school faced on average roughly \$5,000 more in debt (\$26,800 vs \$31,400). Source: The College Board
